

RECEIPTS TRANSACTION CODE:

Please be aware of the following bug in the system under the Receiving module. Person Receiving must enter in a Transaction Code for all the receipts entered in the TFMSM system.

The screenshot shows the 'Receipts (MTG)' window with the 'Lines' tab selected. A table lists receipt lines, with the first line selected. Below the table is a summary section with various fields.

Quantity	UOM	Destination Type	Item	Rev	Description	Location
1481	US D	Expense			REIMBURSE TWC	

Order Type: Standard
Supplier: MTMC
Item Description: REIMBURSE TWCF FOR WWWCCS EX
Destination: ---
Header Receiver Note:
Shipment Receiver Note:
Order: MIPR00B2000051
Due Date: 25-APR-2003
Hazard:
UN Number:
Routing: Direct Delivery

When a user checks the box to the left to select the line, the Transaction code window does not appear.

The screenshot shows the 'Enter Transaction Events' dialog box overlaid on the 'Receipts (MTG)' window. The dialog box has several input fields and buttons.

Form Activity: PO Matched Receipts
Transaction Event:
Transaction Code:
 Do not display this window again
OK Cancel

Transaction code window appears if the user clicks on the quantity field on the line.

We need the transaction code window to appear every time that you do a receipt. There are now receipts with no transaction code because the user was never prompted to enter one in.
